

Farmer's Foods

DOUBLE COUPON POLICY

Farmer's Foods truly doubles manufacturer coupons every day. Coupons of 50 cents and less are doubled to a total value saved up to \$1.00. We further double/extend a credit amount of coupons with a value higher than 50 cents to a total savings amount of \$1.00. Coupons of a value higher than 99 cents have no extended credit amount. No limit to the quantity of manufacturer coupons to be doubled as long as the product meets the requirements and the customer is purchasing the product. Customer is responsible for all taxes that apply to all coupons. Here are some examples: a 30 cent coupon would lend a total of a 60 cent credit; a 75 cent coupon would give/lend a total of \$1.00 credit.
